**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 15 recites the limitation "the apertures" in lines 1 and 2. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 5, 6/1, 6/5/1, 7 and 9-14 are rejected under 35 U.S.C. 102(b) as being anticipated by US 3,249,261 to Benediktson.

Benediktson shows a foam dispensing valve as seen in Figs. 1 and 2, having a spring 20 crimped in disk 14, a valve seat 24 in the disk 14, an elastic sealing member 22, a sealing element formed in the spring 20, see Fig. 1, a valve stem 34, a sealing element shaped as a bowl formed at the center of the separated element 20, a duct 32 and a sealing body 26 fitted into an inner cylindrical extension of the disk.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over US 3,249,261 to Benediktson in view of US 2,779,514 to Kebel.

Benediktson shows all claimed features as discussed above but is silent about the cross section shape of the dispensing apertures. Kebel shows a dispensing valve with apertures shaped as a star or a rectangle, see Figs. 6 and 7. It would have been obvious to a person with ordinary skill in the art at the time the invention was made to make the dispensing apertures in the device of Benediktson of any desirable shape to produce a stream of product with an attractive shape as the product flows from the dispenser as taught by Kebel, see column 6, lines 6-12.

***Response to Arguments***

7. Applicant's arguments filed May 2, 2008 have been fully considered but they are not persuasive. In response to applicant's argument that the references fail to show a valve body and stem arranged inside the valve disk, in the device of Benediktson all the valve elements are arranged inside of the structure of the valve, within the space delimited by the disk 14.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
